Respectfully addressed to:

Human Resource Department
Robert Bosch Vietnam Co. Ltd
Unit 11.7, e-town 2, Cong Hoa street, Ho Chi Minh City

Dear Sir/Madam,

I am pleased to express to you herewith my interest and enthusiasm for the post of Architect (Software Development) in Robert Bosch Vietnam Company Limited.

I am a software engineer with 6 years of experience working for software, service and manufacturing companies, especially nearly 2 years as an in-house software development team leader and a SAP ERP project team member in a manufacturing company.

I have experience in designing new software as well as restructuring existing software. I also have good practice in maintenance of legacy software system. This process helps me to know what the good software architecture should be, not only for running in present but also for retaining in the future.

Moreover, with the diploma of Master of Computer Science certified by Ho Chi Minh City University of Technology (HCMC BK), I am confident of having a solid technical background as well as efficient methods to approach new domains and to solve problems.

For those reasons, I am confident that my experience and skills are suitable for the job of Software Development Architect. And most of all, I like the manufacturing industry.

I would like to emphasize again my expectation to work for Robert Bosch. I believe that a great brand name like Robert Bosch is a professional working environment for creative and eager-for-learning employees, where I will be able to contribute my best to the organization's success in a long term co-operation.

Please refer to my attached CV for more detailed information.

I can be reached via my cell phone, 0918 923 613, or through email, leanhhuy3681@gmail.com / leanhhuy3681@yahoo.com.

I look forward to an interview on this employment opportunity.

Thanks for your time and consideration.

Faithfully yours,

Huy, Le Anh

RESUME OF LE ANH HUY

LE ANH HUY
